-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The amendment received 4/20/05 has been entered and new claims 24-43 are currently pending in this application. Many new issues have been raised by the new claims and the arguments presented. Hence the new claims are now being submitted to a restriction to narrow the issues to be considered in the future. It is noted that the point of novelty argued in the arguments presented regarding the rejections over the references of record are not now found in the claims as presented.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claim 24, drawn to adding a reducing agent prior to HDS and then removing the reducing agent.
 - II. Claims 25, 26, 40, drawn to making an HDS lyophilisate without protectants.
 - III. Claim 27, 35-38, 41, drawn to deactivating pyruvates prior to adding HDS.
 - IV. Claim 28, 42, drawn to binding homocysteine.
 - V. Claim 29, 39, 43, drawn to filtering and centrifuging to remove pyruvates.
- Claims 30-34 are generic to claims 24, 25, 27.

The inventions are distinct, each from the other because:

Inventions I-V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are distinct because they each have a different method step that would inherently have a different result.

Because these inventions are distinct for the reasons given above and the search required for each Group is different, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ralph Gitomer whose telephone number is (571) 272-0916. The examiner can normally be reached on Monday - Friday.
